

SPARKULAR waverFALL

SPARKULAR® waverFALL is 180°waving spark fall effect originally developed by SHOWVEN. It can firing in any single direction between -90° to 90° or in waving sequences. With 72 preset firing sequences and various editable sparks effect brings infinite creativity to your stage. It can also combined with SPARKULAR WAYER to generate a spark effect in any direction of 360 degrees.

Features

- ∨ 180° waving spark fall effect
- ∨ 3-7m adjustable waving fall effects
- ∨ Firing angle can be waving or any fixed direction between -90° to 90°
- ∨ Waterproof design can be used in rain
- ∨ Fast and precise nozzle waving based on exclusive dual PID algorithm control system
- ∨ 72 preset firing sequences, easy operation and programing
- ∨ Stainless steel housing, durable and reliable
- ∨ Motor status real time monitoring, safer to use and easier problem diagnosis
- ∨ 3.2" LCD color screen, user friendly

Specifications

Dimension	300 x 305 x 285mm	304 stainless steel
Net Weight	17kg	Motor Status Monitoring
Voltage	AC200-240V / AC100-120V, 50/60Hz	Yes
Work Power	500W	Color Screen
Housing Material		Yes, 3.2"
		Firing Direction
		Waving between -90° to 90°
		Fixed firing angle between -90° to 90°
		Effect Angle Adjustable

YES, -90° to 90°

Preset Firing Sequences

YES, 72 preset firing sequences

Hopper Capacity

400g

HC8200 Consumption Rate

25g/min

Interface

3-pin and 5-pin XLR

Control

DMX, 6 channels

Effect Height

LARGE: 3-4m

LARGE I: 4-5m

LARGE II: 5-7m

Effect
